# SELIM TOKEN (SLM)
# OFFICIAL ECOSYSTEM WHITEPAPER

Version 2.4 | November 2026

BNB Smart Chain (BSC) | BEP-20

**Community-first. Transparent. Decentralized.**

**SLM Maximum Supply: 30,000,000 SLM**

**Integrated RHA Token Ecosystem: 12,000,000 RHA**

This edition presents the SLM ecosystem framework and integrates the RHA Token ecosystem, including token allocation, presale, rewards, and lock/vesting arrangements.

Official project information. All plans, targets, and timelines remain subject to the qualifications and disclosures in this document.

# Document Information

| Item | Details |
|---|---|
| Project | Selim Token (SLM) |
| Document | Official Ecosystem Whitepaper |
| Version / Date | 2.4 / November 2026 |
| Network | BNB Smart Chain (BSC / BEP-20) |
| Integrated ecosystem token | RHA Token — 12,000,000 RHA planned supply |

# 1. Project Overview

Selim Token (SLM) is a community-focused digital asset project built on BNB Smart Chain. The project aims to develop a community-driven ecosystem supported by token-based participation, a Telegram Mini App, planned wallet infrastructure, NFT initiatives, and future DeFi-related utilities.

The SLM ecosystem emphasizes transparent token distribution, published lock and vesting arrangements, and staged product development. Roadmap dates and product features represent current plans and may be adjusted through official announcements.

# 2. SLM Token Overview

| Item | Details |
|---|---|
| Token Name | SELIM TOKEN |
| Symbol | SLM |
| Network / Standard | BNB Smart Chain (BSC / BEP-20) |
| Maximum Supply | 30,000,000 SLM |
| Planned Listing Price | 0.23 USDT per SLM (target only; not guaranteed) |

# 3. SLM Token Distribution

The planned maximum supply of 30 million SLM is divided among eight allocations. The lock and release terms below reflect the current project plan.

| Allocation | Share | Amount | Lock / Unlock |
|---|---|---|---|
| Market Reserve | 35.00% | 10,500,000 | 1-year full lock |
| Pre-Sale | 20.00% | 6,000,000 | 50% at TGE; 50% over 3 months |
| Liquidity Pool (LP) | 10.00% | 3,000,000 | 2-year lock |
| Team | 10.00% | 3,000,000 | 1-year full lock |
| Future Ecosystem | 10.00% | 3,000,000 | 6-month full lock |
| Community Airdrop (Locked) | 6.67% | 2,000,000 | 6-month lock; then campaign distribution |
| Developers | 5.00% | 1,500,000 | 1-year full lock |
| Mining Airdrop | 3.33% | 1,000,000 | No lock |
| Total | 100% | 30,000,000 | — |

**Circulating supply planning:** At TGE, projected circulation is 4,000,000 SLM (1,000,000 Mining Airdrop plus 3,000,000 Pre-Sale unlock). After the 3-month Pre-Sale vesting period, the projected amount becomes 7,000,000 SLM. The Future Ecosystem allocation is planned to unlock after 6 months. Actual circulating supply will depend on completed distributions and on-chain implementation.

## SLM Pre-Sale Structure

| Component | Amount (SLM) | Price |
|---|---|---|
| Completed private sale | 50,000 | As announced |
| Round 1 | 1,000,000 | 0.06 USDT |
| Round 2 | 1,000,000 | 0.09 USDT |
| Round 3 | 1,000,000 | 0.12 USDT |
| Round 4 | 1,000,000 | 0.15 USDT |
| Round 5 | 1,000,000 | 0.18 USDT |
| Round 6 | 950,000 | 0.21 USDT |
| Total | 6,000,000 | — |

# 4. SLM Lock, Tax and Burn Mechanics

## Lock Periods

Market Reserve, Team, and Developers are planned to remain locked for one year. Future Ecosystem and the locked Community Airdrop are planned with six-month locks. The Liquidity Pool is planned to remain locked for two years. Pre-Sale tokens follow the TGE and three-month vesting schedule.

## On-Chain Transaction Taxes

| Transaction | Rate | Allocation / Use |
|---|---|---|
| Buy Tax | 2% | Directed to the SLM Liquidity Pool |
| Sell Tax | 3% | 1% SLM Wallet Development; 1% Server Maintenance; 1% SLM Staking Rewards |
| NFT Transaction Tax | 5% | 20% of collected NFT tax is allocated for SLM market buybacks. Buybacks are manually decided and carried out by the SLM Team as needed; they are not automatic. |

## Quarterly Burn Schedule

A total of 9,000,000 SLM is planned to be permanently burned from the Market Reserve through quarterly burns over 5 years and 9 months. After the planned burn cycle, 1,500,000 SLM is intended to remain permanently in the Market Reserve for ecosystem support and will not be burned.

# 5. SLM Community and Ecosystem

## Multi-Revenue Buyback Program

• 20% of generated SLM Wallet income (including transaction fees and swaps) is planned to accumulate for one year. After that period, the accumulated pool is intended to fund SLM market buybacks and community airdrops.

• 20% of the ongoing 5% NFT trading tax is allocated for strategic SLM buybacks. The SLM Team will determine the timing and manually carry out buybacks when considered necessary, based on project needs.

## SLM Wallet and Staking

The project plans a non-custodial multi-chain SLM Wallet with native staking functionality. The planned staking mechanism is intended to connect SLM participation with RHA Points rewards. Wallet release timing and supported chains will be announced through official channels.

## Early Bird and NFT Rewards

The first 5,000 Telegram Mini App users are planned to receive an Early Bird Badge. Free NFT minting is planned for eligible Badge holders seven days after the SLM listing. The connected Web3 wallet is planned to require at least 10 USDT worth of SLM for mint eligibility, subject to final official rules.

# 6. Updated SLM Roadmap

| Date / Period | Milestone |
|---|---|
| 2026 | Community expansion, official platform development, and Telegram Mini App ecosystem growth |
| 15 November 2026 | SLM Testnet launch for wallet, faucet, transfer, and network testing |
| 1 December 2026 | Planned SLM Pre-Sale start |
| January 2027 | KYC phase planned to open |
| February 2027 | Planned end of the current SLM mining phase |
| March 2027 | Planned SLM listing, beginning with PancakeSwap, followed by CEX expansion subject to approvals; RHA Points mining and SLM staking rewards planned to begin |
| 7 months post-listing | Planned multi-chain SLM Wallet utility expansion |
| Ongoing | Wallet revenue accumulation, community buybacks/airdrops, scheduled unlocks, and quarterly Market Reserve burns |

All dates are project targets or current plans and may change. Exchange listings, app availability, and feature releases are subject to technical, operational, regulatory, and third-party conditions.

# RHA TOKEN ECOSYSTEM

Tokenomics, Rewards, Presale and Lock / Vesting Framework

**RHA Token Supply: 12,000,000 RHA**

**Network: BNB Smart Chain (BEP-20)**

**Planned Listing Price Target: 1 USDT per RHA (not guaranteed)**

## 7. RHA Overview and Relationship with SLM

RHA Token is a planned complementary token within the broader SLM ecosystem. RHA Points are planned to be earned through RHA Point Mining and eligible SLM staking rewards. RHA Points are intended to convert into RHA Tokens under rules that will be announced officially. KYC verification is required for eligible mining and staking reward conversion and distribution.

RHA is a separate token initiative with its own supply, allocation, presale, and distribution framework. Holding SLM alone does not guarantee an RHA allocation unless the official eligibility rules explicitly provide one.

## 8. RHA Token Overview

| Item | Details |
|---|---|
| Token Name / Symbol | RHA Token / RHA |
| Network / Standard | BNB Smart Chain / BEP-20 |
| Planned Total Supply | 12,000,000 RHA |
| Planned Listing Price Target | 1 USDT per RHA; target only, not guaranteed |
| Contract Address | To be announced through official channels |

## 9. RHA Token Distribution

The 3,000,000 RHA Community Airdrop allocation is divided into 2,000,000 RHA for RHA Point Mining and 1,000,000 RHA for SLM Staking Rewards.

| Allocation | Amount (RHA) | Share |
|---|---|---|
| Pre-Sale | 4,000,000 | 33.33% |
| Community Airdrop – RHA Point Mining | 2,000,000 | 16.67% |
| Community Airdrop – SLM Staking Rewards | 1,000,000 | 8.33% |
| Future Ecosystem | 2,000,000 | 16.67% |
| Marketing Reserve | 1,000,000 | 8.33% |
| Liquidity Pool (LP) | 1,000,000 | 8.33% |
| Developer | 500,000 | 4.17% |
| Team | 500,000 | 4.17% |
| Total | 12,000,000 | 100% |

# 10. RHA Presale Framework

The planned RHA Presale allocation is 4,000,000 RHA. The sale is planned to accept USDT and BNB, subject to the final sale interface and network configuration.

| Round | Price per RHA |
|---|---|
| Round 1 | 0.85 USDT |
| Round 2 | 0.90 USDT |
| Round 3 | 0.95 USDT |
| Round 4 | 1.00 USDT |

**Planned purchase limits:** Minimum 10 RHA and maximum 10,000 RHA per participant.

**Presale unlock:** 50% at TGE and the remaining 50% over 3 months. Sale dates, round allocation sizes, eligibility, and final participation instructions will be published separately.

# 11. RHA Point Mining and SLM Staking Rewards

**RHA Point Mining:** 2,000,000 RHA are allocated to the mining reward pool. RHA Point Mining is planned to begin after the SLM listing, with the current plan targeting March 2027. The mining period is planned to run for at least seven months after the SLM listing. KYC is mandatory for eligible reward conversion and distribution.

**SLM Staking Rewards:** 1,000,000 RHA are allocated to reward eligible users participating in the planned SLM staking mechanism. Reward terms will be published before the staking program opens.

**Reward unlock:** Both the RHA Point Mining and SLM Staking Rewards allocations are planned for 50% at TGE and 50% vested over 6 months, subject to final program and claim rules.

**Point conversion:** RHA Points are intended to convert into RHA Tokens. The daily point-to-token conversion ratio will be announced with an SLM App update. The conversion method, snapshot details, claim process, and exact dates will be published officially.

# 12. RHA Lock and Vesting Schedule

| Allocation | TGE / Lock Terms | Vesting |
|---|---|---|
| Pre-Sale | 50% at TGE | Remaining 50% over 3 months |
| RHA Point Mining | 50% at TGE | Remaining 50% over 6 months |
| SLM Staking Rewards | 50% at TGE | Remaining 50% over 6 months |
| Marketing Reserve | 6-month lock | 3 months after lock |
| Developer | 6-month lock | 3 months after lock |
| Team | 6-month lock | 3 months after lock |
| Future Ecosystem | 1-year lock | Not specified |
| Liquidity Pool | 1-year lock | LP position/tokens intended to remain locked for 1 year |

The lock and vesting durations are stated as periods. Exact release frequency (for example, daily, monthly, or linear), unlock dates, wallet addresses, and on-chain enforcement details have not yet been specified and will be announced when finalized.

# 13. RHA Utility and Ecosystem Role

RHA is planned to support additional participation and reward utility across the SLM ecosystem. Its initial planned connection is through RHA Point Mining and SLM staking rewards. Future ecosystem integrations, products, and use cases may be introduced as development progresses. Any utility described in this document is a project plan and is not a guarantee of delivery or financial return.

# 14. RHA Development Roadmap

| Period | Planned Milestone |
|---|---|
| After SLM listing | Begin RHA Point Mining and RHA rewards associated with eligible SLM staking, subject to KYC and program rules |
| With SLM App update | Announce daily RHA Point-to-Token conversion ratio and relevant conversion instructions |
| Following token launch preparations | Publish RHA contract address, token verification details, presale and liquidity arrangements through official channels |
| Future phases | Expand RHA ecosystem integrations and utility as officially announced |

# 15. Transparency, Security and Risk Disclosure

The project intends to publish official contract addresses and relevant technical information through verified SLM and RHA communication channels. Users should verify contract details carefully and avoid unofficial links, impersonator accounts, and unsolicited requests for wallet credentials or private keys.

Digital assets involve substantial risks, including price volatility, liquidity risk, smart-contract vulnerabilities, regulatory uncertainty, and the possibility of partial or total loss. Token allocations, vesting schedules, reward programs, roadmap dates, and price targets do not guarantee market value, profit, or listing outcomes. Users should conduct independent research and should not contribute funds they cannot afford to lose.

# 16. Important Notes and Pending Details

The following details will be announced or finalized through official channels: SLM and RHA contract addresses and verification links; exact TGE and launch dates; final presale schedule and round allocations; detailed KYC and eligibility procedures; RHA point conversion methodology and claim process; exact vesting release frequency; liquidity venue and lock verification; audit/security review information; and any final changes to roadmap milestones.

This whitepaper is informational only and does not constitute financial, investment, legal, or tax advice, nor an offer or solicitation to buy or sell any asset. No return, profit, fixed market price, or exchange listing is guaranteed. The project may update technical details, timelines, and implementation plans when required, with material updates communicated through official channels.
